President and General Manager of the Commercial Bank of Haiti

President and Jeneral Janaser of the Commercial Bank of Faiti (Baname Connerciale d'Haiti - BCH), dance Clemard Joseph Charles is known as a confidant of President ribbukkt if formarrink François Luvalier and as a businessman of questionable repute. One well-informed intrinscent official source reports that Charles, in as "slippery character" and the state ithough ective on the faitian scene; there is considerable doubt, and to disclose importance or political significance despite / ona the fact that he appears to have a "line into the Palace" and is personn Save . Prosident National Baula of Haite grata with the President. | Regarding Charles! business interests, a prominent and knowledgeable Raitian recently (North 1963) reported that the Commercial Bank of Waiti is in bad shape, "holding a worthless myotfolio made up of notes guaranteed by political figures, and that Charles himself was dishonest. having for example, recently approved a loan for \$14,000 on his daughter's signature alone. Further, Charles was alleged by this same source to know nothing about banking and to be a favorite of President Duvalier / xixxxxxxxx wim This estimate is confirmed by one U.S official who adds that Charles is more accurately described as a "promotor" than as a businessman and that he is a partner in the BCH rather than the sole owner. Charles from the starting endeavors to attract US venture capital for various Haitian projects and claims to be an honorary citizen of Long Beach, "ong "sland, New York, having promoted a "sister city" relationship between that town and Port-wyrince.

Smaller Commercial Banks in Bad Shape

Combar André remarked quite firstly that there are really only two banks in Haiti, the midd and the Royal Eark. The others are pretty sad affairs. The BANGUE COLCHECHAITIAN, for example, has a portfolio of \$1.4 million which is, as André put it, "all fraud". The president of that bank, he said, is a rich man today. His technique, according to André, is to find someone willing to accept a loan which he knows cannot or will not repay on which he kicks back in some cases more than half. André said he knows personally of one man who was leaving for the United States who signed notes for 110,000 and accepted \$2,000, the remainder going into the pocket of the bank president. As for reserves, the Colombo-Haitian bank has been below the legal requirements for months and is now paying, in accordance with law, fines of \$150 daily. What will happen when depositors want their woney back he, andré, would rather not think about.

André said he knew the bank had tried to interest some American investors in the business, perhaps in the hope of getting new capital with which to keep going. He, André, however, understood that the Americans were a rather dubious Mismi group, even if they did come in (which he did not at the moment foresee) he didn't think it would improve the situation. The Colombo-Haitian bank, he said, was in such poor shape it would take a major overhaul to save it.

I had led the conversation over to the Colombo-Haitian bank because of certain special interests we have. I new took the cocasion to ask about Clemard CHARLES and his COMEMCIAL BANK OF HAIT. André replied that the situation was practically the same. The bank held a worthless portfolio made up of notes guaranteed by political figures. Charles himself was dishonest - recently, for example, he had approved a loan for SIA,000 on his daughter's signature alone - and he also knew nothing about banking out ne was something of a favorite with the President who gave him support. The Birth holds mortgages on the Commercial Bank of Haiti, for example, and, since payments are now substantially in arrears, Andri said, he might have foreclosed. The President, however, had asked him not to in order to avoid a scandal. (5)

Balance of Fayments Situation Temporarily Improved

Turning buiefly to the balance of payments question, I asked andre how matters now stood (having in mind, but not mentioning, some

JOSEPH D. CHARLES

Joseph D. Charles, a Negro, was born 15 November 1907, at Limbe, Haiti. He is married and has five children. He received his law degree at the Law School in Cap Hatien in 1928. A former law professor, Assistant Prosecuting Attorney and Judge of the Civil Court in Cap Hatien (1928 - 1940), Charles served as Ambassador to the United States from 8 October 1946 until 1 June 1960. During this period, he served also as Ambassador on the Council of the Organization of American States (1949 - 1950). He resigned his ambassadorial post after the fall of the government of President Estime who had appointed him. On 29 February 1952, he was designated Secretary of Education and Public Works by President Magloire and resigned from the cabinet on 31 March 1953, allegedly because of his opposition to increasingly close ties between the governments of Haiti and the Dominican Republic.

Charles chaired the Haitian delegation to the second post of the first session of the UN General Assembly (1946), the second session (1947) and the fourth session (1949). He chaired also the delegation to the Ninth International Conference of American States at Bogata (1948) and is reported to have been friendly to the United States.

Charles has in the past been mentioned more than once as a possible successor to the incumbent president. The most recent eccasion was in 1955 when he was mentioned as a possible successor to President Paul E. Magloire.

SECRET

CHARLES

Madame Charles, nee Telson, is a sister of Adelphin Telson, formerly Minister of Defense and Justice, formerly President of the Chamber of Deputies, who is friendly to the US and in contact with US officials in Port-au-Prince. A sister of Madame Charles is married to Colonel Marcaisse Prosper, former Chief of Police under the Magloire government. It has been alleged that the three men, Charles, Telson and Presper, constitute a potentially strong political force in Haiti.

- 1. On 2 May \$3, we had a four-hour interview with Clemend Joseph Charles, president and general unneger of Sanque Commerciale d'Heiti, Port-au-Prince, vice president of the Estien Chamber of Commerce, and cousin of Joseph D. Charles, former Heitian embaseador to the U.
- 2. Classed Charles, whose PO Box in Port-eu-Prises is Bo. 5751, told us that he was e men of possent stock and that while a business leader he has the full confidence of the prodominantly pessent population of Heiti, and, that with the additional backing of forcibly retired anti-duvelier enay officers, intellectuals, journalists end businessmen, he is in a position to become the head of a provisional government siter Duvelier is removed. He believes the upon between now and 15 May when Duvalier's turn expires and 22 May, when his new turn is scheduled to commune, will be the most crucial period for Buiti. its believes Davelier is reedy to institute a reign of terror, killing those who oppose him, and is Willing to accept Novaloc help. About two weeks ago the Polish charge d'affaires left Port-eu-Prince for Poland, and Charles believes he carries Duvelier's request for economic and pougibly military bolps
- 3. As vice president of the Chamber of Commerce, he learned that in early April 1963 a Cascingalovek delegation errived in Port-ou-Frince, presumbly to discuss trade matters, a fact which gave rise to remore that it consisted of military technicians.
- 4. Charles firmly believes this will be the lest chance for the US Government to help sateblish a democratic Beiti friendly to the Us and save the country for a Costro-type Corumist takeover. Although he has been on good terms with Duvelier, he now feels that the Provident "went cross and must be stopped before be Liquidates the opposition. - 7. Cherles X said he would need the "morel and economic help of the US Covernment and people" to transform Haiti into a true and prosperous democracy. He said he would need about one year to put into ess effect his "plen for the economic and social development of Heiti," which, emong others has these selient points:
 - a. Creation of a belinced economy adapted to Heitien conditions b. Development of industry and exploitation of natural resources
 - c. Modernization of agriculture
- 8. Charles would like to present his plan to US officials for consideration. He seid about 90% of Haitiens are against Duvalier, who maintains his rule by beeping the militie strong. Burd Divelier no longer has funds to rey the militiaren but ellows them to "live off the lend." Charles believes that in the event of an anti-Nuvalior uprising, the army would kill the heted militiamen who are suspens responsible only to Duvalier.
- 9. Once Divolier is finished, Charles would suggest that as a goodrill gesture merd the Haitians, who are overheelningly pro-US, the UB construct the promised eirport and thus greate john. Inother way to bolster the commy mid be to encourage tourists.
- 10. Charles hopes the Dominican Republic will not invode Duralier's Zaiti. e believes the Deminiumne could easily defect Heiti's army and militie et en invesion vould couse the Heitigns to rally around Pavelier in defense of their country.
- 11. Before Loaving Port-eu-Prisco, Charles worked out a telephone ocde with ble wife, Sephie. On 30 Apr 63, he called her, and she told him "not to rush home," which meent that his life might be in danger if he returned to Beiti now. In view of this, he told the Beitian Consul in New York that he has to stay a few days longer to buy parts for mechines used in his Haitian sical enterprise.

WUBRINY - M. Clemard Joseph CHARLES

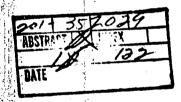

- 1. WUBRINY/1 telephoned on the sterile line from Chicago, on his way to the West Coast, to report his final contact before departing with subject.
- 2. Subject telephoned WUBRINY/1 on 1 May and said that because of the recent unpleasant developments in Haiti he thought it would be quite inappropriate to continue discussions regarding WUSALINE possible investment in the area at least until things were clarified.
- 3. M. CHARLES indicated that he was returning to Haiti shortly and aske if WUBRINY/1 could visit him there. WUBRINY/1 said that he would consider this or have one of his representatives go, if it later seemed desirable. He indicated, however, a continuing interest in the investment picture in Haiti if, as, and when.

- 1. WUBRINY/1 telephoned from his residence on the sterile lim at approximately 0930 hours to report the following.
- 2. WUBRINY/1 said that he believed that the meeting that is to be held by Mr. CHARLES and WUBRINY/1 plus an unnamed third party would involve a Mr. Tardieu.
- 3. I told WUBRINY/I here had been considerable interest in this general development on the part of the Department of State and cited (without identification) A-406. Amembassy, Portau-Prince, dated April 11, 1963, subject: U.S. Businessman Signs Contracts with Haitian Government and Local Bank. I told WUBRINY/I that the Department information I had before me cited Le Moniteur of March 13, 1963 and said that the Airgram also mentioned a Mr. Rert Cindine TARDIEU. I also gave WUBRINY/I the points raised under "comment" on page 2 of the Airgram.
- WUBRINY/1 said that he agreed with all of these comments as he had come to the same conclusions.
- 5. I told WUBRINY/1 that there was obviously considerable interest in any reporting that he can do on this subject and requested that he let me know when the meeting takes place and continue his detailed reporting as heretofore. He agreed to do so.

DO/COEO Memorandum dated 23 April 1963 requesting traces on CLEMARD, Joseph Charles

There are no traces on Clemard Joseph CHARLES (201-357-029) born 21 April 1923 at Gonaives, Haiti, who is President and General Manager of the Commercial Dank of Haiti, in RID or at the WH/Haitian Desk. In March 1963, Biographics Register prepared a summary of information on Mr. CHARLES for inclusion in the Biographic Intelligence Report on Haitian Opposition Personalities. This summary is made up of information obtained from several different sources. One source classifies CHARLES as a slippery character who is active on the Haitian scene and refers to him as a "promoter" rather than a businessman, who endeavers to attract United States "venture" capital for various Haitian projects and then becomes a partner by virtue of the promotion. Biographics Register has a very high opinion of this Source, who is the State Department's Haiti Desk Officer. During a debriefing on CHARLES, in February 1963, this same source stated that CHARLES is a confident of President Duvalier and that he has emerged as an active businessman by virtue of his priviledged position with the

2. Another source of information regarding CHARLES' business interests is the President of the National Bank of Haiti who considers CHARLES, himself, as dishonest. For example, according to Source, CHARLES approved a loan of \$14,000.00 on his daughter's signature alone. Also, the Commercial Bank of Haiti held a worthless portfolic made up

of notes guaranteed by political figures. This Source also stated that CHARLES was "something of a favorite of the President, who gave him support."

- 3. Attached to this memorandum is a copy of Department of State Airgram No. A-325, dated 16 February 1963, from the United States Embassy, Port-Au-Prince, Haiti, subject: Banking: Balance Sheet of the Banque Commerciale d'Haiti which includes some information on CHARLES' life story. You will note the comment in the last paragraph of Airgram A-325 that reads, "... Be all that as it may, the Embassy has no strongly adverse information concerning Mr. Charles' integrity or banking honesty. And as the balance sheet shows, his bank, if not thriving, is at least still a going concern.
- 4. It may be that a check with OO/C through Mr. Schreyer's office and a request for field station traces will provide additional information concerning CHARLES. A copy of this memorandum is being forwarded to RID with a request for a 201 file on Subject which will be forwarded to you on permanent charge.

FRIEND OF MRS. DOROTHY MATLOCK (SEE WHAT I MEAN BY "FLUID"?) MAD CHANGED

MIS TRAVEL PLANS TO WASHINGTON. INSTEAD OF TUESDAY ME (DRYER) NOW

EXPECTS TO BE IN WASHINGTON IN THURSDAY OR FRIDAY. CHARLES INDICATED

THAT HE WOULD BE VILLING TO GO TO WASHINGTON SOME TIME THIS WEEK.

ME ASKED US TO SEE HIM AGAIN THIS AFTERNOON. OUR MEETING (THE THIRD

SINCE THIS WEEK. HE ASKED US TO SEE WIM AGAIN THIS AFTERNOON. OUR

MEETING (THE THIRD SINCE LAST THURSDAY) IS SCHEDULFD AT 1438. BALOG

(STILL CAPTAIN BALOG, US ARMY TO CHARLES) WILL GET IN TOUCH WITH STUNTZ

2. CHARLES TOLD US THAT HIS "SPIRITUAL FATHER", B. GINDINE TARDIEU, A FRENCH CITIZEN, A CONSULTANT TO CHARLES" BANK IN PORT-AU-PRINCE IS IN NEW YORK NOW. TARDIEU WHO HAS SPENT AT LEAST 26 YEARS IN MAIT!, IS NOW STAYING AT THE PARTK SHERTON HOTTEL, ROOM 2432.

CLEMARD JOSEPH CHARLES. HE INFORMED US THAT HE HAD RECEIVED A TELEPHONE CALL FROM JOSEPH F. DRYER. TAMPA, FLORIDA. DRYER TOLD CHARLES THAT HE COULD NOT SEE HIM OVER THE WEEK END. BUT WOULD VISIT HIM IN NEW YORK CITY NEXT VEDNESDAY, 8 MAY. PRIOR TO THAT DRYER PLANS TO MEET IN VASHINGTON DC JACQUELINE DELHAR, 3130 P STREET, NW, TELL FE 3-9866, A FRIEND OF RISS MADLOCK'S TO DISCUSS "THINGS OF MUTAL INTEREST CONCERNING MAITI.

2. CHARLES TALKED TO US ABOUT THE VORSENING SITUATION IN MAITI.

WE BELIEVES THAT IT WAS TIME FOR THE US TO LAND THE MARINES IN MAITI

TO LIBERATE THE COUNTY FROM "MADMAN DUVALIER" AND PROTECT THE LIVES

OF AMERICANS THERE. HE FEELS THAT THE US SHOULD ACT UNDER THE AEGIS

OF OAS IN THE INTEREST OF HEHISPHEPIC SOLIDAPITY. HE MENTIONEL THAT THE US DID NOT MESITATE TO SEND MARINES TO LERANON WHEN HIS INTERESTS WERE THREATENED.

- 3. CHARLES DECIDED TO STAY IN NEW YORK "FOR THE TIME BEING". TODAY HE SENT A CABLE TO HIS BANK IN PORT-AU-PRINCE INDICATING THAT HIS BUSINESS TRANSACTION (RUYING MACHINE PARTS FOR HIS ENTEPPRISES) WILL KEEP HIN IN US FOR AWHILE.
- 4. DISCUSSING THE REPORTED MASSACRE OF ANTI-DUVALIER ARMY OFFICERS
 CHARLES URGED FAST ACTION ON PART OF US. HE REITERATED HIS OPINION
 THAT DUVALIER WOULD BE "ELIMINATED" BY 22 MAY, BUT WARNED AGAINST LETTING

MATI-DUVALIER EXILES NOW IN THE DOMINICAN PEPUPLIC. CUEA AND ELSEWHERE METURN TO HAITI AND "START SHOOTING THERE". HE SELIEVES THAT THE BEST POLICY FOR THE US TO FOLLOW WOULD BE TO COME TO AN AGREEMENT WITH LEADING MAITIAN ARMY OFFICERS. IN ADDITION TO PREVIOUSLY MENTIONED MARKES, HE FEELS THAT GENERAL CONSTANT, COL. CHAM AND COL CAILLARD COULD BE WON OVER FOR COOPERATION. HE CLAIMS TO KNOW THESE OFFICERS WELL AND TO GASE OF LANDING OF US MARINES HE WOULD BE GLAD TO GO ALONG AND SERVE AS AN INTERMEDIARY. HE FEELS THAT HE MAS FROUGH INFLUENCE TO BRING ABOUT

SITUATION WITHOUT BLOODSHED IN WHICH SETTING UP A PROVISIONAL

COUNTRY.

A HAITIAN STUDENT AND MEMBER OF THE CLANDESTINE CATHOLIC ACTION PERSONNALISTE MOVEMENT WHO HAS MANY CONTACTS AMONG CATHOLIC, COMMUNIST, AND DUVALIERIST STUDENTS. SOURCE USUALLY REPORTS ACCURATELY THE INFORMATION HE RECEIVES. HE RECEIVED THIS INFORMATION FROM FOUR DIFFERENT SOURCES WITH ACCESS TO OPPOSITION AND PRO-DUVALIER CIRCLES INCLUDING FRANTZ LEROY, PRIVATE SECRETARY TO AGRICULTURE MINISTER VICTOR NEVERS CONSTANT.

THEY ARE JOSEPH CLEMARD CHARLES, PRESIDENT OF THE HAITIAN

BANK OF COMMERCE, CLCVIS DESINOR, MINISTER OF FINANCE, AND

LUCKNUR CAMBRONNE, MINISTER OF PUBLIC WORKS. EACH OF THEM

HAVE THEIR SUPPORTERS WITHIN THE GOH OR DUVALIER POWER

STRUCTURES AND SOME HAVE SUPPORT FROM SOME CPPOSITIONISTS.

ALL THREE REMAIN GUTWARDLY PRO-DUVALIERIST AND THERE ARE

NO SIGNS THAT THEY INTEND TO TRY TO OVERTHROW DUVALIER

THEMSELVES. THEY ARE PRESENTLY JOCKEYING FOR SUPPORT FOR

THEIR BID FOR POWER WHEN DUVALIER LEAVES THE PRESIDENCY.

- 2. CLOVIS DESINOR IS CONSIDERED TO BE THE MOST
 POWERFUL. HE HAS THE SUPPORT OF COLONEL JACQUES LAROCHE,
 ASSISTANT CHIEF OF STAFF, AND IS WIDELY CONSIDERED TO BE
 A RUTHLESS AND UNSCRUPULOUS SEEKER OF POWER. (SOURCE
 COMMENT: DESINOR HELD POSTS UNDER PRESIDENTS DUMARSAIS

- A. LUCKNER CAMBRONNE HAD THE SUPPORT OF COLONEL

 WAS DISMISSED FROM THE ARMY AND TOOK ASYLUM IN THE BRAZILIAN

 EMBASSY. THE HOUSE OF CAMBRONNE'S MISTRESS, NEE LAFOREST,

 WHO IS THE SISTER OF MRS BEAUVOIR, WAS PILLAGED BY THE

 MILITIA ALONG WITH THE HOUSE OF BEAUVOIR, AND THIS IS

 INTERPRETED BY MANY OBSERVERS AS AN INDICATION OF CAMBRONNE'S

 LACK OF INFLUENCE WITHIN THE GOH HIERARCHY. WITHIN THE PALACE

 IT IS RUMORED THAT CAMBRONNE WILL NOT BE ALLOWED TO KEEP HIS DEPUTY'S

 SEAT FROM ARCAHAIE IN THE JANUARY ELECTION AND THAT HE WILL

 BE REPLACED BY DABELMAR MENTOR. (FIELD COMMENT:

 IN 1961, DABELMAR MENTOR WAS SECRETARY GENERAL OF

 THE MINISTRY OF JUSTICE.)

The state of the s

The very heat was to affire the existence of true Lemonray lies in the creation of a political agency which would consecute the inclinable rights of men to live, to enjoy freedom and happiness. A true an affective political decontralization would then correspond the existence of this Lemonray.

Fully condident in the power of the truth which cannot over be hidden, much more in the indiagntable justness of the cause we are endeavouring to diffuse; convinced of the precious passibility to put an end to the loonine privileges of a minority whose personal interest stands against all honest and importial government managements, as the con of personate, we reaffirm here our faith in the final trimph of a true and indiagonable political evolution through a broader representation of the interest of the people, thereby assuring to our minerable co-citizens still fighting for the admosted genent of their most secred rights new reasons to believe and to hope. In this view our action shall tend toward the evolution of our masses in order that they may enjoy living conditions compatible with their dignity. And by means of a could productivity expressed in terms of the welfare of our rural population, we chall formulate the economic requirements of the country within the framework of a realist and rational program. In line with this goal we are outlining below a program for the economic reconstruction and the social promotion of our rural masses.

An objective consideration of the present condition of our country makes it clear that the solution of the country's social and economic problem lies in the following considerations:

- . 1 .- Creation of a balanced economy adequed to the conditions of the country;
- 2.- Development of Industry and exploitation, of our natural ressources so as to promote an improvement of living conditions;
- 3.- Transformation of rural way of living and modernization of agriculture so that the pensants who represent the largest portion of the country's population come out of their encestral misery and participate in the prosperity of the nation. Ind then, arrive at the integration of the rural population of the country in its economic life by means of literacy and the preparation of ukilled workers in order to increase the productivity of the agricultural activities, also that of the traditional handarafts and of the manufacturing laduatries saids are still for a primitive stage.

The formation of man and the preparation of leaders in a factor of primary importance for the speedy schiousment of the contemplated objectives.

•••/••••

These pieces of equal importance are linked together. Therefore, they cannot be separated without underported the whole pattern. Of course errors have been made reportedly. He ever, the straightening which is a must calls for a general review of the principles and objectives of our economic and financial policy, which should be considered the first stops to be taken towards a true economic start.

For a long time, the people responsible for our decrease and Minancial Policy had built their programs upon illusions. The continuous demographic prossure and the influence of social progress, together with the normal desire of the different classes of the population to benefit a reasonable part of the national revenue. have made indiagonsable the development of a well balanced economy. This development can be conceived but in terms of industries using to the latest extent the raw materials and the resources of the country. As a matter of fact, the mobilisation of these resources is paramount for the achievement of true progress in the way of political liberty and for the improvement of material living. Education, modical care, transportation facilities and the improvement of living conditions are the primary requirements for modernizing the living conditions of the population. To sum up, the increased production of riches through the creation of industries and the systematic exploitation of our subsoil, added to other natural assets, shall furnish the resources necessary to the adequate operation of our system. For fault of considering the cituation in this point of view, any and all idea of generalized social wolfare and national grandour will remain purely a dream.

The modernization of agriculture, and the improvement of the rural way of living which will result therefrom should go abroaut with industrialization. The rapid increase of the rural population and the recession of infantile mortality, as well as the extension of life limit obtained through the application of Hygiene rules, make it necessary to use to the largest extent the rejects of agricultural production in Processing Manufactures in order to assure the surplus subsistence to the surplus population and, through the export of the thus processed agricultural rejects and products, supply the Treasury with the proper foreign exchange stock necessary to maintain a well balanced economy.

The improvement of the living standard, as said before, is subject to the adequate development of the production assets, which cannot be atteined without the improvement of the people. Brought up to a level which make them asset of their needs and of the role that isodety and the development of their region request from their those people will understand that the outsetted data of the problem reside in the followings because mittiened land, adequate equipment, areation of industries, application of experienced arisaltical techniques, processing industries, akilled labor.

It may be well to recall that at the Conference in Panta del nate was emphisized the importance of the transformation of the people in the development process of under developed countries.

All this loads to consider the protection and preservation of the understructure works of which the unjoing connect be underestimated. Sloctric power, roads, bridges, urbanism, irrigation and drainage system etc., are the factors that the contemplated development calls for its full realization.

Of course the Maitian State has always cared for the understructure equipment of the country. Movever, the investments - very important at times- to this end have been made without an all out plan, not with a statistical and rational estimae of the country's needs, but with such agastes in the execution that the general problem of the country's basis equipment is still a matter of consideration.

In Haiti, the National Sepital comprises broadly the understructure equipment and the production equipment, as a result of the fact that our social and sconomic System lacks a natural repartition of the functions as exist in the advanced countries where the State takes care of the understructure equipment while private enterprise engages in production. The obligation for the State to devote its activities to both the understructure and the production problem, the latter private initiative cannot assume due to failure or lack of experience, compels saw state to build proper methods and means to appoint the formation of the Hational Capital through the adequate and honnest exploitation of our financial sources.

To this and, we propose to build a program including the execution of specific projects already studied and for which the financing can be obtained from abroads

Within the framework of the objectives outlined in this summary, we propose the creation of an apency titled "Mational Planning Committee". Concurrently with this Committee would be created a Bank for Acanomic Development.

GRAND TOTAL 3 100.000.000.-

The Sational Planning Committee would build a plan of general development of which the execution would appead over a period of 25 years, uplot into 5 year periods. The plans and programs applicable to each period would be executed under the close supervision of the Committee, and modified in accordance with such economic changes as may happen. The program would be maintained in a permanent basis, In the course of its execution and as a result of the possible modifications, would follow the curve of international programs and thereby remain setual.

Piret of all would be prepared a priority order which would be based on the nervous contern of the soonamy to be straightened. This priority order would embrace a well door instead and concrete actions, based upon observation and experience.

The lack, or rather the absence of financial means against the important disbursements called for by the general program obliges to rely upon investments.

Trop planed. It would be the duty of the Benk for Moorenie Development to channel

the foreign inder thougher of grants - counterfact stunds - or of private investments jointly with the mobilisation of our retional resources.

As for the resistance to be given to private initiative towards the development of new a micultural, industrial and commercial emborations, it will be necessary to reorganize our benking system by the mention of a Control Bank: Stock Exchange, Bortgage Sank, Agricultural A hural Gredit Bank and other financial institutions such as: Sevings & Fredit Bank, Bank for Financing low cost Housing for the people with low revenue, etc.

Secides, negociations shall be made with the International Financing Company which has been orested intely in order to finance national private enterprises. He will work jointly and closely with the international konetary Funds, the BID, and the BID in view of obtaining the financing of a certain amount of revenue - producing projects. At the name time, we shall endeavour to strengthen the position of our national currency.

In addition, the Sudgetary Reform will be accomplished. A National Budgetary policy which observes the difference between elministrative expenses and capital expenditures shall permit a proper adaptation of the budget to the requirements of the economy so as to make of it a true instrument of a general policy.

Also The Fiscal policy shall take into account the requirements of the economy. A revision of the Customs fariff shall be pursued and made. Keasures shall also be taken to guaranty honesty and integrity in handling the State's Funds. Just consider that for the fiscal years 1949-1950 to 1956-57, the total disbursements of the state has reached the sum of S: 1,350,596,631.—, or around \$270.000.000.—, and that the largest portion of this sum has gone into triple expenses or served for spectacular works most of which with absolutely no economic justification. In this sum are not included neither the various financial disbursements made outside of the budget through loans obtained during the same period and which brought the public debt up to G: 249,184.000.— or 349.836.800.— as at September 30, 1957, nor the expenses supported by the non-fiscal accounts and the various autonomous enterprises of the State. All this is the evidence that the formation of the National Capital can be worked out through sound autonistation.

As regard Public Finance, emphasic whall be made on the following points:

- 1.- Harmonization of the fineal policy with the economic policy;
- 2.- Harmonization of the budgetary pollmy with the economic policy;
- 3.- Improvement of our banking system in to mainly smooth credit conditions;

. . . / . . .

- 4.- Greation of new private bunks for the development of hynderafat and industry;
- 5.- Reorganization of the supplies Court of Adoptints upon such busis as shall guaranty its most complete intensity;
- 6.- Reorganization of the Department of Finance. Integration of the Finance Imagestion Service and the Pudio Accounting within the General Accounting:
- 7.- Complete reform of our fiscal logislation by means of measures able to modify the structure of fiscality so to attain a petter orientation of the economic and financial policy of the country;
- 8.- Remodelling our Code of Johnsons in order to give more guaranties to local and foreign creditors, and to adapt the law to the requirements of internal exchange.

If the straightening of our public finance is of primary importance, production and equipment are likewise necessary. Therefore, in the execution of the 25 year development plan submitted and within the priority order to be invited out by the Hational Planning Committee, serious consideration shall be given to the following revenue producting and understructure projects:

- a) Colonization and transformation of the rural centers through the integration of the agricultural section in the economic, political and social life of the country in order to obtain better economic and social results, and to attain the following primary objectives:
- I : Increase production.
- II : Build villages in order to avoid the dispersion of the rural groups and thus, to better use the working force of the community:
- III: Roise the rural living standard, and,
- IV: Assure to the rural lawers a permanent living upon the economic lot through an adequate agrarian reform; fight the peasant's inclination to migrate to the toms and thereby, protect agriculture.

All of this implies that problems shall have to be sold in as various fields as Education, Public Health, Housing, Transportation, Agricultural Credit, Agricultural Extension, Agricultural Equipment, Irrigation, Drainage, Referent ration and the control of Erision, Access roads, Professional and Handisrafat Robools, Rural Police, Electric Power, Hydene, Sanitation, Creation of Cooperatives, Transformation of our 550 Rural Sections into villages where the priest, the doctor, the sanitation Inspector, the Agricultural Agent, the Toucher, the Judge, the Tax Collector, the Minister, the Mayor, the natural leaders of these villages shall fain together toward a mutual action including mainly the improvement of the diary, the organisation of sound respections, a modification in the unital behaviour of the parameter with regards to the problems of their familiae and the community to witch they

audio-visual contect, novies with well balanced programs.

However, the transfer of part of the agricultural labor to Industry, to be appreciable, shall necessitate the creation, besides the agricultural industries, of other enterprises to process wither the resources of our sub-soil, or imported raw-materials.

In this field, we shall concentrate our efforts on the following:

- 1.- Project for the processing of comonut and vegetable oils.
- 2 .- Frotory for deshydrate account for export-
- 3 .- Vegetable oil Actrating Plant for local consumption.
- 4.- Toilet soap Factory
- 5.- Extension of Palm Oil Plants and Production of Oleaginous.
- 6 .- Cocoa Production along with a Processing Plant.
- 7.- Extension of Cotton Production for a modern spinning-Hill.
- 8.- Spinning-Mill.
- 9.- Plant for the preparation of Hydrophil and Absorbent 3:tton) (loc.coms).
- 10.- Creation of a Mechanical Industry with branches over the whole territory for the manufacture of agricultural tools and spare parts for all kinds machines.
- 11.- Plant for the manufacture of low cost electric range and of all electric accessories.
- 12 .- Plant for the Production of Organic Fertilizer.
- 13.- Assembling Industries to work for Export.
- 14 .- Sienl, Fruits sugar Cane Straw Processing Plants. ..
- 15 .- Bottle manufesture.
- 16 .- Safety metch dactory.
- 17.- Paper Mill.
- 18 .- Cattle huising Industry to intensify the development of our live-stock.
- 19 .- Flahing Industry.
- 20. Tourism.

En propering our plan, we will not underestimate the frot the transportation, and sommunication determine at all their stages the rhythm and the transportation successful development. Therefore shall have to be averate decommendential the improvement and extension of our road and rail network in order to enlarge the rural market. Only through good roads and sufficient and losseout transportation means that the retail the retail transportation reach the communer at moderate prices. This will contribute towards related the interest to population. Also

shall be necessary proper communication means to ease the mobility of Inder and attenuate to the price fluctuations, these modifical make it possible to decide on the geographic implantation of new industries and on the extent to be given to the development of various somes in line with the all our program.

These shall be considered:

- a) The asphalting or admenting of all main roads; the stonning of all secondary reads, and the construction of new roads.
- b) The construction of telephories to join certain commodity-producing centers to urban centura.
- c) Organization of an adequate railway system.
- d) Rationalization of general transportation (transport en commun).

As for marine transportation, our country has not yet exploited its insular position and its geographic situation. Enther their developing normally, our constingvessel is jeoparty for lack of well equiped dry docks, also due to the insufficient technical preparation of our sailors. Yet, the marine way remains the changest in internal trade.

We shall consider the creation of a Marightion School, the adjustion of a merchant Series for external trade, and we shall give such facilities as can facilitate the modernization of the consting-vescels, the opening of new ports for external trade; the construction of a modern and free port in Port-au-Prince to serve as ware chousing for goods consigned to certain couth-American countries, also the repair and modernization of our existing ports.

In the field of air-transportation, these shall be created a national airline to link Port-au-Frince with foreign cities. Shall also be created airports in the large towns of the Popublic.

It is obvious that the success of this program which calls for disbursements amounting to around one billion five hundred millions dellars (31.500.000.000.-) over 25 years, shall depend largely upon the competence of all ongazed in the Public Administration.

We shall also noncontrate our efforts on the following points:

a) Complete untermy to the Communes. The Council of Notables shall be re-established on new back in both the dominine and the Village (kined doubtes). Portedto Congress between the Mayors of a same Department and the different of there Department shall make possible the preparation of Touri programs of which the execution shall program of the constant plane.

- b) Organization of the Administrative carper which shall be free from political influence. A law shall die the stable of fluence;
 - o) Remodelling of our different codes to allow them to the present economic and social conjuncture, and the adoption of each measures as can speed up logal decision:
 - d) Complete commaination of women who shall be able to fill the same administrativo and technical positions as men, inasmuch as they are qualified;
 - e) Technical assistance shall be requested from the following International Institutions: FAC, CEU, BIRD, FMI, and BID towards a complete remodelling of public administration, mainly for the adequate execution of the general plan.
 - f) Remodelling of National Education, for Education is basic for the success of all actions understaken by the community. The remodelling of our universities and the new orientation to be given to our Primary, Secondary, Superior and Professional Echools shall be in line with the formation of our technicians and our Philosophic of Education;

These are, briefly, the various phases of the programs intended to change the social and economic structure of the country.

Ever since the conquest of his independence, the Maitian, to-date, has been suffering; morally as the result of an excessive discrimination; physically because of a criminal misunderstanding and a generalized corruption, so much so that the impression remains this corruption, has been made a political system.

A new concept is imperative to assure the normal distribution of the Lational riches. A new concept of which the concretion shall be accomplished by the sound portion of the country jointly with the appointment approximate of the United States Government.

EMMANUSL C. PAUL

If the competitive communities are so dynamic and impose by the rate of their cycle of evolution, it is because, to the end, their social struggles result into economic terms through the production of valuable men superior to their consumption.

Because we failed to draw up our balance-sheet at each epoch of our life, we do not seem to understand that we are arriving at inverse reports. Our bachwaraness is the result of this negative unbalance between the production and the consumption of our valuable men.

We should be considue of the urgency if not to change our method of struggling, at least to come up with superior principles susceptible of making our struggles less accive and much more profitable to the community. On this point, the example effered by more advanced countries of which we are copying the bad sides can be of service to us. To decrease the rate of consumption of our valuable men in order to increase their production in the course of time is to learn to appreciate, them to utilise and to respect them. We shall, thereby, create the condition that will preserve and foundate them.

We know, indeed, that it is extremely hard to come to this reasoning, it is much more difficult to adopt it as the motte of our collective behavior. We are only a few to grasp this thruth because this phase of our social competitions results into a mass of historic factors. The first effect of our internal divisions generated by colemician and fed up, afterwards by the old regime of oppression was the creation, at the various levels of our societies of a complex of self destruction, that turned into a social cannibalism. In the production of this event where everyone, without undergoing in any way the influence of a mystic or of a superior principle, is moved while believing he is moving towards his rightful interest, one has the impression that the community is unable to find it was without the help of a trustoe, hence the implicite or public acknowledgement of the superiority of the former boss.

These truths that are found in filigree thoughout the pages of medera and continuepary history of colonialism should rouse the Haltians' thought in order that they may endeavour to increase their national potentiallities and over approviate and respect their social values:

•••/••

of course in the political, utilitary and intellectual domain we have had real stars. However, our encounte and social history is rather poor on a certain point of view. This means that very few are those who, in spite of numerous obstacles, have succeeded by notably increasing the national economy and improving the living condition of our people. Our understanding of the "Benevolent State" requires that this objective be its main job.

There have been numerous attempts, indeed. Comes to our memory Pantaléon Guilbaud, the tobacco king during the time of our youth, but at last! just fugitive attempts! If this is the case and of we really love this country we wish to be fully ours, our duty is to tie up the old man binding us, and meaning hatred, meanness, chove all, envy. Then we will limit the consumption of our valuable mem.

Hot so long ago, we have written an article about Dr.Day when his laboratory was consumed by fire. We did it then because in our opinion, for two generations, this name stood as the sumbol of continuity for the community. In the same spirit, we would like to evoke a new name, another social value who deserves admiration. This name is Clonard Joseph CHARLES.

This emersion dates back from yesterday, and yet, he is already a pioneer. Dark, average in size. Quick yes under a boad forehead which is already graved by a pressture baldness. This is his phisical stature in brief. Still young, only 39 years of age. Clemand Joseph CHARLES was born in Consider in April 1923 and is proud of his peasant origin. It was in this town that he received his primary and secundary education, at the "frares de l'Instruction Chrétienne" and the "Lycée Geffrard" Schools, It was also in this Artibonite that he began the struggle for life, first as a rural teacher. His father's death in 1939 marked a stage in his life. He had to take over the heavy responsibility of meeting his family needs. Charles then proved to be a disciplined man and became successively craftsman, plantation supervisor, without giving up intellectual studies; he ventured in journalism as an amateur. As a progresssivenind, he strongly believes in the value of effort. From one activity, he goes to another and is never discouraged by obstacles. He is a man who searches his way and is determined to find it. In 1947, he was General Controller of the Banana Industry in the south and the year after, he was appointed General Agent for a Corporation. Els sumerous contacts gave him at this time sufficient business experience for him to undertake his own business. In 1949, he settled as Manufacturer's Agentiand doubt: in import-Export. By dist of discipling, of dynamics and tenucity, the little reval

teacher of the year 1939 is already well know as an experienced businessmap, and his relations overseas are such that in 1953, he was appointed as a member of an Economic Mission sent to London by the Covernment. Ed did so well that one year later, he was enousted by the Jovernment with the mission of negociating a contract with the General Electric of Coventry for the improvement and extension of our telecommunication system. In 1957, as a member of another mission, he took past in the International Conference in Ermasels. In the meantime, Chemard Joseph CHARLES devoted himself to various commercial and industrial activities. His life is shared between his office in the Capital City and numerous trips in the country where he kept inquiring on possibilities of investment. Whenever you happen to meet him, he speakes of new projects for the development of the country. His waiting-room is always full of people either awaiting instructions for the countries, or agents. also of other people asking for credit. Among his enterprises we note the Universal Enterprise Co. (USACO) the National Deutsch Associates, The Cotton Industry in the South and Charles-News & Co., without mensionning the branches of his store. All These activities do not hinder him from representing the General Electric Co., Ltd. of London and the Siemens Schukert Worke Co.

But the masterpiece of his life as a businessman was the creation in 1960 of the Commercial Bank of Haiti, a project he had long been dreaming of His initiative ranks him as a great Figneer. The Commercial Bank of Baiti is the first private Haitian Bank. When one reals that the Mational Bank was redeemed only in 1949 to become property of the Raitian State, then one will realise the amount of daring throught. tenacity and broadness of view it took Clemard Joseph CHARLES in such a place to materialise this creation that will have a part in the Economic History of our country. Clemard Joseph CHARLES is the image of a new type of businessman we did not know before. He broke up with the low customs of tradesmen, these brokers who find themselves selfishly satisfied with profit margins which the accumulate in banks abroad and who begin again the routine each year. The reason for the backwardness of our masses is that they do not have the support of an enterprising bourgeoisie execting velfare opportunities. Charles believes that it should not be left to the State alone the duty of promoting the economic development of the country. He is: well aware of his mission and he knows that he must give a hand to the less fortungto enes to help their evolution. Therefore, this Commercial Bank that has met with so much suppose in so short a time is the conter of multiple sotivities profitable to many people with low pay. If we do not loose faith in this country and that we believe in its potentialities, then we believe that a Pioneer as Clemard Joseph CHARLES ought to be better known in order to be better understood and encouraged.

Mais le chef d'oeuvre de la vie d'homme d'affaires de Clémard Joseph Charles, c'est la criation en 1960 de la Banque Commercia le d'Haiti dont il a longtemps ca ressé le projet. C'est cette ini-tiative qui fait de lui un Grand Plonnier. La Banque Commercia le est la première banque privée haitienne. Si l'on s'imagine one même la Banque Nationale n'a été meme la Banque Nationale n'a cie rachetée qu'en 1949 peur devenir propriété de l'Etat Haitien, on a'imagine ce qu'il a fullu à Clé-mard Joseph Charles dons un mi ileu comme le nôtre, de hardies se de pensée, d'audace, de ténaci té et de largeur de vue pour ar river à une telle création, laquelle fera époque dans l'histoire écono mique de notre pays. Clémard Charles nous donne l'image d'un nouveau type d'hommes d'affaires que nous ne connaissions pas avant·lui. Il a divorcé d'avec ces usages sans grandeur de mercants - courtiers à la petite semaine qu' se contontent éguis-tement d'une marge de profits qu'ils accumulent à l'Etranger at qui recommencent la routine chaque année. Si nos masses res tent si arriérées c'est perce qu'el tent al arrières c'est perce qu'el les se sont pas encadrèrs par u ne bourgeoisie, entreprenante, créatrice d'opportunités de bien - être. Charles pense qu'il pas luisror à l'Etnt tont seul la tâche de proneuvoir le développement decommique du pays. Il est conscient de sa mission sociale et salt qu'il doit don ner la main aux moins munis pour les faire monter. Aussi cet te Banque Commerciale qui a con nu dans le public un succès al étonnant en un court taps de temps est - elle conque comme le centre de rayonnement de multip'es activités dont tirerent pro-fit de millera de garne-peu. Les projets à l'étude, forsqu'ils seront réalisés, ferent de cette ini-tiative, une véritable institution nationale.

1. Pursuant to our telephone conversation on 8 March. it is requested that your representative, in talking with Clemerd Charles, obtain the latter's views on the following:

- the economic and political stability of the Reitian Government for the next four menths;
- current threats to President Duvalier and origin of these threats:
- ability of President Duvalier to control opposition from within or outside the country;
- attitudes of Haitian business men in Pert-au-Prince relative to the present government.
- 2. I would be very interested in any indication from Glemard Charles that he is anti-Duvalier or that Duvalier's tenure is limited.

We national, sales representative of a UE tobacco manufacturing company the has had 40 years' experience in the industry. Source sales frequent business trips to Latin America and recently returned from a six weeks' visit to Econdor, Panson, and Ealti. He has excellent contacts in the errors he visits, speaks moderate Spanish and French, and is a shrewd observer.

- 1. During the period 1952-59 I tried to establish business association with certain Haitiens including such characters as Eric Tippenhauer, Colonal M Prosper, Senstor Louis De Joie, George Légar, and many others. On the occasion of my first visit to Port-ou-Prince in five years, I encountered a new set of characters, but they are obviously of the identical "cut" as my previous acquaintences.
- 2. A reportedly privately-send tobacco company known as Le Tabac Haitien, B. A. is directed by Cleared Joseph Charles, a black Edition the also happens to be President of the Commental Hank of Haiti. This cigaratte magnifecturing firm is the direct descendent of the long defunct Haitien-American Tobacco Co. Some six menths ago Le Tabac Haitien began extering moderate questities of leaf tobacco and providing letters of credit to pay for the leaf. When I held my first series of conferences with Mr Charles, he immediately attempted to impress me with his political, secial, and accounts influences in Haiti and them proceeded to enlist my principal's financial participation to the small sum of US\$300 thousand. Fally cognizent of the Haitien style of business, I deferred the effor and proceeded to discreetly inquire of Mr Charles' status in Haiti.
- 3. As a matter of convenience Mr Charles provided me with a curriculum witne which I exote as follows:

5. Since my previous commercial aspeciations in Haiti dated prior to 1959,

I found it extremely difficult to locate old acquaintances, for most are

deed or in voluntary exile. I did manage to essemble some date on

6_5_6_b_b_

Mr Charles that I regard as reliable. He is specifically referred to as "Papa Doe's" banker and financial manager. Mr Charles, as would be expected is "very close to the Palace" and has ready access to President Davelier. As for his character, he is described as "a crook and a poor liar." In other words, Mr Charles is truly a Haitian political character and not to be trusted under any conditions.

- 6. I noted that Mr Charles mentions his activity in 1954 as a negotiator on behalf of the Haitian Government with the General Electric Co of England for modernization of the country's telecommunications system. As a result of this contract Maiti experienced one of its greatest pulitical scandals for the contract was for US\$4 million, and the actual delivery of products was only US\$1 million. I, likewise, observed that Mr Charles is president of the Haitian Banana Corp which was originally operated by Eric Tippenhauer and Colonel Prosper, and subsequently was bankrupt because of financial mismanagement. Still further, Essential Oils Co was at one time the exclusive domain of Senator Louis De Joie, and since his death the company is headed by Mr Charles.
- 7. I am personally satisfied that Mr Clemard Joseph Charles is President Duvalier's personal financial manager, and the companies directed by Mr Charles are in fact owned and/or controlled for the benefit of Haiti's chief amecutive. At the moment Mr Charles' principal assistant in the tobacco industry is Henry Sichait, who just happens to be Director of the Haitian Tobacco Monopoly and Secretary-Treasurer of Le Tabac Haitian, S. A. Sichait is believed to be Mr Charles' "hatchet man" but I was not able to verify this allegation.

SOURCE AND APPRAISAL FIELD REPORT NO. UFG-6004

1. ON OR ABOUT 3 OCTOBER 1964 THE AVIATION INVESTORS COMPANY OF FORT LAUDERDALE, FLORIDA, RECEIVED AN INQUIRY ABOUT THE POSSIBILITY OF BUYING A C-119 AIRCRAFT FOR THE COLOMBIAN GOVERNMENT. THE CALL WAS MADE BY RAYMOND (NOT FURTHER IDENTIFIED) TO SAUDERS V. ROBERSON, AN AVIATION INVESTORS COMPANY EMPLOYER, WHO AGREED TO INVESTIGATE THE PROPOSED AIRCRAFT PURCHASE.

2. ON 5 OCTOBER ROBERSON RECEIVED A TELEPHONE CALL FROM A MAN WHO IDENTIFIED HIMSELF AS "RASH" (PHONETIC) REGARDING THE POSSIBLE PURCHASE OF A P-51 AIRCRAFT OSTENSIBLY FOR THE COLOMBIAN GOVERNMENT, BUT IT WAS ACTUALLY INTENDED FOR HAITI. ROBERSON AGREED TO MEET WITH "RASH" AT THE CONGRESS BUILDING DI MIAMI TO DISCUSS DETAILS OF BOTH FURCHASES.

Case-40,556 --- Clemard Joseph Charles

- 1. At Clemard Joseph Charles' request, on 14 May 63 C/S Balog had a "farewell" interview with the Haitian banker. The private conversation, which took place at Charles' room at the Park Sheraten Hotel in New York, lasted about one hour. On 15 May 1963 Charles flow back to Pert-au-Prince, Haiti.
- 2. At the outset of our "confidential" interview Charles' showed us a letter written by William Stix Wasserman, 40 Wall Street, How York 5, H.Y. whom Charles' described as a "big financiar and my salviser" and addressed to Sena or Hubert Humphrey. According to Charles, Humphrey and Wasserman are good friends, an allegation which may be true since the salutation of the letter was "Dear Hubert" and the general tone of it indicated a fairly close relationship tetween the two.
- 3. In his letter, Wasserman asked the Senater to receive Charles when he described as a man with "liberal views in regard to cooperatives." Reservan went on saying that Charles sees "the necessity of creating a new relationship between capital and labor primarily through prefit sharing that will at least nullify to some extent the siren song of Communist propaganda." Wasserman concluded by stating the following: "I think at this very critical time in Heitian affairs and with Castro why 60 miles away that the Administration might begin to look for men with Er. Charles' ability and attitude to see what can constructively be done to bring some hope to that unfortunate island."
- A. Charles stated that since he was unable to make another trip to Washington to see Schator Rusphrey he maked his friend and business partner, Joseph F. Dryer, Tampa, Florida to present Wasserman's letter to the Senator and request him to receive Charles when the Haitian banker returns to the US on one of his frequent business trips.
- 3. Charles reiterated his willingless to cooperate with the US
 Coverance. He wishes to be contested at his bank in Port-au-Frince, but not his
 This home, Parat Si. He stated that after his return to Haiti he will
 contact "In utmost confidence" some of his influential friends: Army
 efficers, intellectuals, writers, journalists, business men and will be

China ling and

glad to talk with a US Government official concerning the "general political climate in Haiti." Although he has had several contacts with members of the US Embassy in Port-au-Prince, he prefers to cooperate with "one of Captain Balog's friends." All the US official has to do is to walk duto his office at the bank and say that "Im am a friend of Captain Balog's". If a contact is made this way he will be willing to cooperate "to the fullest."

- 6. He told us that he was not prepared to give his support to these anti-Duvalier politicians in exile who had a few days age announced the formation of a government in exilc since "they are not the right people to take over in Haiti." We emphasized that he would not under any circumstance support Duvalier with whom he is thoroughly disillusioned. In fact, he thinks that Duvalier "went crasy and must be and will be eliminated." He did not elaborate and stated that first he must go back to Haiti and talk with his friends. He mentioned, however, that his cousin, Joseph D. Charles, a former ambassador of Haiti to the US who now lives in "forced retirement" in Cap Haitien, was ready to re-enter the political life at a propitious mement. He believes that his cousin will have enough Army support to become provisional President and then with popular support will be elected President of Haiti. Upon his return to Port-au-Prince, Charles will work toward rallying support for Jeseph D. Charles. He is confident that once in power, his uncle would nursue a pro-US policy. At this point, Charles intimated that "a Joseph Charles government could grant the US rights to establish a maval base at Mole St.-Nicolas, which is about 60 miles from Cube."
- 7. We wished Charles bon voyage and, of course, promised nothing concerning his offer to be contacted in Port-au-Prince. We merely told him that we would report our convergation to "our mutual friends in Washington" for their decision. Regardless of this decision, Charles" stated that during his next trip to New York he would call us on the telephone to discuss "things" in confidence.

SURJECT: Clomard Joseph CHARLES OR RELEASE,

1. On 29 April 1963 Dorothe Matlack, Domestic Exploitation Section, ACSI, telephonel to the effect that a banker named Clemard Joseph Charles had left Hiiti six days earlier and had just arrived in New York. A friend of Charles, named Joseph Dryer, 109 Lakewood Avenue, West Palm Beach, Florida, had written to General Delmar, former CG Antilles Command, recommending Charles as a man of great interest to the US government in view of the events in Haiti. Charles was described as President of the Bane Commerciale, Fort au Prince, Haiti, who is in President Duvalier's favor. Mrs. Matlack mentioned that she had alerted Col. Sam Kail in Miami to contact Dryer in order to obtain more background information and an assessment on Charles.

2. On 1 May 63 Mrs. Mutlack adviced that Charles was staying at the Park Sheraton Hotel, New York, and that he had telephoned her since her name had been supplied to him by Dryer. Charles considered ber to be his point of contact in Washington. According to Mrs. Matlack, Charles had appointments to see Vice President Johnson, Senator Keating, and Congressman Rogers (Florida). However, Charles was willing to talk to representatives of Mrs. Matlack's office. Mrs. Matlack stated that the Multian Desk man in ACSI was ready to go to New York to talk to Charles and invited CIA to accompany him. Charles speaks very little English and a fluency in French was therefore required for the interview. Mrs. Matlack stated that she might be able to obtain a French linguist from First Army, Covernor's Island, but he would not be an intelligence officer. It was decided that James Balog, New York Office, who has a knowledge of the French language would accompany the ACSI representative It was also arranged that Balog would meet the ACSI representative (Coptain Rogers) at the Park Sheraton Hotel where Charles was staying.

3. On 2 May 63 Mrs. Matlack reported that Col. Kail had interviewed Mr. Dryer in West Palm Beach. Dryer had appointed Charles as Director of his bank in Haiti. Charles, according to Dryer, formerly had no political ambitions but in view of the current political situation in Haiti, Charles now thinks that he may some day be president. Dryer described Charles as well-connected, politically and financially, on both sides of the fence in Haiti. He is also a good friend of President Duvalier. Dryer had given Charles letters of introduction to Senator Keating and to other officials in Washington. Charles wanted to see President Kennedy and indeed had gone to the White House to arrange for an appointment. He was well received by the President's appointment ment secretary and invited to dinner that evening with the appointment

secretary. Through a misunderstanding, however, Charles did not attend the dinner but went to New York instead.

- 4. Charles is travelling, according to Dryer, with a Texan geologist named de Mohrenschildt. de Mohrenschildt is associated with Charles in a business venture in Huiti and is trying to arrange a meeting for Charles with Vice President Johnson.
- 5. On 3 May 63 Jim Balog telephoned to advise that he had had a five-hour session the previous day with Charles and that he had obtained both personality data and views by Charles on what the United States should do in the current Maitian situation. Balog advised that he was transmitting the information to Washington. Upon arrival, copies of the teletypes were transmitted to ACSI (Mrs. Matlack), WH Division, and the Latin America Branch.
- 6. On 6 May 63 Mayo Stuntz, Support Franch, advised that WH Division wished to speak to Charles and Balog was asked to arrange an appointment. Mrs. Matlack telephoned at approximately 1715 to advise that she had just received a telephone call from Mrs. de Mohrenschildt asking assistance in obtaining hotel reservations in Washington. Upon being told that we had no special means of obtaining reservations, Mrs. Matlack stated that she would check with the State Department Protocol Office to determine which hotels would admit negro guests. Mrs. Matlack finally made recervations at the Alban Towers. A check with Jim Balog revealed that he had arranged for Charles to meet the WII representative in the lobby of the Willard Hotel, Washington, D. C., at 12:00 noon on 7 May. Attempts to reach Mrs. Matlack that afternoon were unsuccessful. At 0830, 7 May, a call was made to Mrs. Matlack to confirm that Charles would be in Washington on that day and that arrangements had been made for a meeting with an Agency representative for 12:00 noon. Mrs. Matlack retorted that both Mrs. de Mohrenschildt and Charles had called her that previous evening to confirm a 12:00 luncheon appointment with her. Mrs. Matlack was concerned that CIA and Army should not be working at cross purposes. She had received authorization from ACSI to meet Charles at lunch and felt that it would not be politic for her to withdraw from her appointment since Army considered her the point of contact with Charles. Mayo Stunts informed WH Division of the conflict and passed on the suggestion that the WH Division representative might meet Charles and Mrs. Natlack at noon and that Mrs. Matlack offered to withdraw shortly thereafter. The WH representative declined the offer and requested that a meeting later in the afternoon be arranged. Mrs. Matlack believed that due to conflicting instructions, she had been placed in the middle in the situation from which she could not graciously withdraw and requested that someone accompany her.

- 7. I met Ers. Hatlack in the lobby of the Hotel Willard shortly before noon, and a few minutes later, Mr. Charles arrived, accompanied by Mr. and Mrc. de Mohrenschildt. We lunched in the restaurent in the hotel. Ir. do Mohrenschildt mentioned that he had been born in Batu, Russia, but during the Bolshevik Revolution had been taken to Poland as a small child. He had spent approximately 20 years in Poland prior to World War II and had served in the Polish Army. He also mentioned that he had been a member of an ICA Team to Yugoslavin in 1957 and while in Belgrade had met Cormika who was visiting Belgrade at the time. He had spoken to Gomilka and was invited to visit Poland, which invitation he had accepted. His home is in Dallas, Texas. He has a this, in seclosy and has had some teaching experience. Mrs. de Mohrenschildt was born in Peking, China. Her father was Russian and her mother French, and she is now or has been a fashion designer. Mr. de Mohrenschildt mentioned that he has known Charles for sometime and that he is a partner with him ir a sisal business in Haiti.
- 8. Both Charles and de Mohrenschildt were anxious to arrange meetings with government officials in Washington. I mentioned to Charles that a meeting had been arranged for him at 2:15 and that a Mr. Green would meet him in the lobby. At 1410 Mrs. Matlack, Mr. and Mrs. de Mohrenschildt and I departed and Charles remained in the lobby waiting for contact.
- 9. In the course of the luncheon conversation, Charles had mentioned to Mrs. Mathick that he desired to see a Mr. Wise, AID, to discuss US aid to Haiti. Inter that afternoon Mrs. Mathack called to state that she had called the State Department to pass along Charles' request. Mr. Zagorski (State) had called her back to pass on the Haitian Desk man's extreme displeasure that anyone in the United States Government should be in official contact with Charles. The desk man considered Charles to be close to the Duvalier Government, to have been involved in several shady financial dealings, and in general, to be an undesirable character. Mrs. Mathack asked whether the Agency had any interest in Charles which would dictate further contact with Charles.
- 10. Mayo Stuntz checked with WH Division and determined that as a result of the meeting with Charles, the DD/P Haitian Desk had no further plans to contact him. I told Mrs. Matlack that our interest seemed to have been satisfied and that I believed we should disensage ourselves as gracefully as possible.

CONTRACT TIME

DD/P Coordinator, called on 7 May to inquire conversing our involvement in the Charles case. He stated that ACM and collet him earlier that day to assure him that ACSI had no direct interest in Charles and that it was acting as an intermediary at the request of General Delmar who had passed the lead to General Fitch. ACSI was concerned that due to the mix up in appointments to see Charles, charges might later be made that ACCI had interferred or had obstructed CfA contact with Charles. I explained to Melson what had happened and he later called back to state that ACSI was completely nationed in the way the matter had been handled.

12. On 3 May Mrs. Matlack telephoned to advise that the Operational Branch of ACSI was discussing the Charles case with DD/F to determine future source of action. She was still somewhat concerned over her own position in the case since Charles considered her to be the focal point In Washington. I reiterated to her that the matter was one for either the State Department or the operational elements to handle and that we preferred to disengage ourselves. Mrs. Matlack mentioned that a dispatch had been received to the effect that a cousin of Charles was prominiently mentioned as a successor to Duvalier should the latter be overthrown. She was of the opinion that the US government should continue to "play bill" with Charles as a future asset in Maitian affairs.

I mentioned to Charles that a meeting had been arranged for him at 2:15 and that a Mr. Green would meet him in the lobby. At 1410 Mrs. Matlack, Mr. and Mrs. de Mohrenschildt and I departed and Charles remained in the lobby waiting for contact.
- 9. In the course of the luncheon conversation, Charles had mentioned to Mrs. Mathick that he desired to see a Mr. Wise, AID, to discuss US aid to Maiti. Later that afternoon Mrs. Mathack called to state that she had called the State Department to pass along Charles' request. Mr. Zagorski (State) had called her back to pass on the Baitian Desk man's extreme displacaure that anyone in the United States Government should be in official centact with Charles. The desk man considered Charles to be close to the Duvalier Government, to have been involved in several shady financial dealings, and in general, to be an undesirable character. Mrs. Matlack asked whether the Agency had any interest in Charles which would dictate further contact with Charles.
- 10. Mayo Stuntz checked with WH Division and determined that as a result of the meeting with Charles, the DD/P Haitian Deak had no further plans to contact him. I told Mrs. Matlack that our interest seemed to have been potisfied and that I believed we should disengage ourselves as gracefully as possible.

11. Name I (Ison, DD/P Coordinator, called on 7 May to inquire concerning our involvement in the Charles case. He stated that ACSI land called him mariler that day to absure him that ACSI had no direct Interest in Charles and that it was acting as an intermediary at the request of General Delmar who had passed the lead to General Fitch. ACSI was concerned that due to the mix up in appointments to see Charles, charges might later be made that ACCI had interferred or had obstructed CIA contact with Charles. I explained to Melson what had happened and he later called back to state that ACSI was completely satisfiel in the way the matter had been handled.

12. On 8 May Mrs. Matlack telephoned to advise that the Operational, Branch of ACSI was discussing the Charles case with DD/P to determine future source of action. She was still somewhat concerned over her own position in the case since Charles considered her to be the focal point in Washington. I reiterated to her that the matter was one for either the State Department or the operational elements to handle and that we preferred to disengage ourselves. Mrs. Matlack mentioned that a dispatch had been received to the effect that a cousin of Charles was prominiently mentioned as a successor to Duvalier should the latter be overthrown. She was of the opinion that the US government should continue to "play ball" with Charles as a future asset in Haitian affairs.
